SUMMARY

Dedicated Full Stack Developer with experience in building scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in RESTful API development and implementing JWT authentication. Seeking a position that leverages my technical skills in a dynamic development environment.

EDUCATION

Bachelor of Computer Application

Deen Dayal Upadhyaya Gorakhpur University

November 2021- June 2023

Gorakhpur ,Uttar Pradesh

PROJECTS

Youtube

<https://youtube-frontend-eosin.vercel.app>

- Developed a scalable video streaming and social interaction platform that combines features of YouTube and Twitter.
- Implemented JWT-based authentication to ensure secure user login and access control.
- Created RESTful APIs for video uploading, streaming, and user subscriptions.
- Utilized Redux for efficient state management across the application.
- Designed a responsive UI using Tailwind CSS, optimizing the platform for various devices.
- Added social features like video recommendations, comments, likes, and tweet-style posts for enhanced user engagement.
- Tech Used: MERN Stack (MongoDB, Express.js, React.js, Node.js), JWT, Redux, Tailwind CSS

The Bharat Times

<https://the-indian-times.vercel.app>

- Built a dynamic news article website that integrates three third-party news APIs to provide up-to-date content.
- Utilized React-Router-Dom for seamless navigation between different news categories and articles.
- Focused on creating a user-friendly and readable interface with intuitive design principles.
- Added search and filter functionalities to help users quickly find relevant news articles.
- Tech Used: React.js, React-Router-Dom, Third-Party APIs, Tailwind CSS

Pizza Ordering Website

<https://pizza-website-sooty.vercel.app>

- Created a pizza ordering application with interactive UI, enabling users to customize their orders.
- Implemented state management with Redux to handle cart items, and pricing dynamically.
- Styled the application for consistent look across all devices
- Fully responsive for all screen sizes
- Tech Used: React.js, Redux, Email.js Vercel

Personal Portfolio Website

<https://portfoliowebsite-lemon-three.vercel.app>

- Developed a portfolio to showcase projects, skills, and achievements using React.js
- Designed a fully responsive interface with Tailwind CSS, ensuring a seamless experience across desktop and mobile devices.
- Incorporated animations and transitions to enhance visual appeal and user interaction.
- Integrated contact form functionality with third-party services for email notifications.
- Tech Used: React.js, Redux, Email.js Vercel

SKILLS

Languages : HTML5,CSS3,JavaScript

Frameworks/Libraries : React.js, Redux, Express.js, Node.js, Tailwind CSS, Bootstrap

Database : MongoDB,

Tools : Git ,Vercel ,Github
